Although Harmonix hasn't ported the tools to work with PlayStation 3, artists creating songs for the web only need to "do some paperwork" in order for the songs to play... So far, this application cannot create own songs, but if you have a song recorded by Sony or elsewhere, you can add it to your playlist. You can also use the apps available on AppStream. Harmonix not only makes music for consoles, but also supports music uploads to YouTube. In fact, there are currently over 60,000 songs in the Harmonix playlist, and the number is growing at a rate of over 500 songs per day.
