What's New In?

Альфа-видео-лайффе Оплатить видеовебеса моменты Avail an Easy-to-use Mac Video Converter BlazeVideo iPad Flick Platinum is a comprehensive yet accessible application that offers several useful tools, such as slideshow creator, video splitter, editor, and merger. In addition you can download videos from Youtube with ease. The main purpose of the app is to transform clips from the PC to the supported Apple types. The compatible devices you can choose from are iPod Shuffle, Nano, Touch 4HD, iPad. Convert numerous records at once with just a few clicks Among the supported video formats the app can handle are RMVB, AVI, MPEG, MP4, WMV, MPG, 3GP, MOV, FLV, MKV, HD. The provided interface is modern and user-friendly, displaying a standard toolbar with all the functions, the file list, and a small player with a few playback controls. The app can convert multiple records at the same time, making the operation more efficient, then handling one at a time. Design slideshows using video frames, and split and merge files Once of the offered features is the option to create unique slideshows using different clip frames that can have a title and background music, as well as play custom transition effects, such as fade, move, mosaic or circle. The splitter lets you cut the file in smaller pieces, by choosing the start and end time for each part. With the aid of the editor, you can crop a file to a custom dimension, adjust the brightness, saturation, contrast, and hue, as well as rotate the clip counterwise and counterclockwise, and flip it horizontally or vertically. Configure the video and audio output properties and download clips from Youtube What's more, you can insert a subtitle if one is available, and change its size and location on the screen. The app lets you enter personalized watermarks to each frame. Plus, you can easily merge multiple items into a single record, while enjoying the clip or movie without being interrupted. In addition, you can set the clip dimension, video bitrate, along with the sample and audio bitrate, the codec format, and audio channel. On an ending note Taking everything into account, BlazeVideo
