Welcome to Downloads. Our team is always looking for the best downloads on the Internet. From file hosting in our own archive to files shared from other teams and shareware programs. We call this our Team Drive. Hosted by admin, Cheetah, Ilya and themselves.Q: Jquery UI autocomplete - accept multiple values I am currently trying to implement a search with jquery UI autocomplete. I would like to enter multiple values, separated by a space and store them in a mysql database in the same column as my keyword. As soon as I add the space symbol it only accepts a single value: I also tried to add the divs: var element = "#search_place"; $("input", element).autocomplete({ source: function(request, response) { $.ajax({ url: 'includes/mysql/autocomplete.php', method: 'POST', data: { term: request.term }, dataType: 'json', success: function(data) { response(data); } }); }, minLength: 1, select: function(event, ui) { alert("You clicked on item: " + ui.item.value); $("#edit_place").val(ui.item.value); $("#edit_place").attr("readonly", true); $("#edit_place").focus(); }, focus:
