FIFA is the world's number 1 football simulation. Developed by EA Canada in association with its partners in the football world, FIFA delivers the authentic experience of world-class football and is easily the most popular sports title of all time. FIFA 22 Features Key Gameplay Features The first in-game engine with more realistic physics-based animations and more intelligent systems give you unprecedented insight into footballing tactics and player behaviour. The artificial intelligence has been enhanced, with more intelligent decision making during free kicks, corner kicks, set pieces, and off the ball. Over 400 stadiums from around the world have been rebuilt and revamped with new, unique atmospheres and sights. As you command your team, your players use over 60 unique player animations. The complete season is now available so you can start and finish your preparations. A new Squad Management system is the only way to give your squad a shape and make sure you're fully prepared for the start of every tournament. New Goalkeeper AI (the first in-game system) will work to foil you. But your ability to keep your goal intact becomes even greater when you integrate a new Iron Wall feature and use the entire pitch to secure your team's advantage. New tactical systems including Tactical AI and Team Instructions will help you find the most effective passing and movement patterns in your formation. Revolutionary new Attacking Features. The Rush to goal has been tweaked to become more realistic, rewarding players who are more patient and giving them more time to make their run onto the ball. The new Dribbling system has been designed to help you find new opportunities and take aim at the goal. Look-tos feature has been introduced to assist players in finding and pressuring the ball, with the correct movement patterns. New defensive system, Dynamic Defence, puts you in control of the defence, helping you anticipate opponent moves and intercept their passes. New Player Kicks: Several new types of kicks are used by professional players at the highest level, such as dropping on the volley or bending the ball with your lower leg. The ability to bend the ball with your full leg is now used by the best goalkeepers at the world's top level. The front of the player's foot is now unlocked, giving you additional options at both free kicks and corner kicks. The amount of bend

By: Justin Miranda There are three different ways to approach a review of the latest shooter from developer: Ready at Dawn, one of the biggest games that came out last year, one that left a lasting impression on the industry. Ready at Dawn is a studio that doesn't want to be remembered as another - or many - shooter games with a great premise and some smart design choices. They are now looking for the biggest impact and biggest name in gaming, and are, perhaps, the most ambitious team in the industry to do so, with one product already
