To find this file in a SAS Enterprise Guide workbook, use the following step: Select Microsoft Windows . If the target directory does not exist, it is created. Target dir is set to.) target dir (or. directory in Programmed Location. Learn SAS by Sandra St. Clayton Learn SAS: SAS Enterprise Guide . SAS Language for SAS Data Step . SAS Enterprise Guide 4.3 You can open this file from the SAS 9.3.2 user interface. Use the OPEN keyword in a SAS program and specify the SAS Enterprise Guide file. To find this file in a SAS Enterprise Guide workbook, use the following step: Select Microsoft Windows .Q: Returning an actual column name instead of the column type name in an SQL query If I do something like this in SQL: SELECT col1, col2, col3 FROM table WHERE col1 = 'value' ... what SQL Server will actually return is: col1 col2 col3 Value 10 3.73 Is there a way to suppress this from happening (i.e. return the column names just like if I did SELECT col1, col2, col3

A: You'll have to do this with dynamic SQL. I'm not aware of any provision to pre-define column names in the query, like you would if you provided the columns as part of your column list. DECLARE @cols VARCHAR(100); SET @cols = (SELECT ISNULL(MAX(CASE WHEN col1 = 'value' THEN 1 END), 0) FROM table GROUP BY col1); DECLARE @sql VARCHAR(100) = 'SELECT col1, col2, col3 FROM'+ @cols + 'WHERE col1 = "value"'; PRINT @sql; -- DROP TABLE #table

30.10.2013, 12:06 Sasa54452333 Hello, I have just received my copy of SAS Enterprise Guide 4.3 from. How much space do I need? If you have an existing. link. What font do you use for code? i want to use a standard font Hi, I need some help with SAS Enterprise Guide 4.3. I have downloaded the program from the SAS web site to my home computer. The installation failed on my computer. I have a HP Network 18 and Windows XP. The installation of Microsoft®.NET Framework 2.0 and Web Service 4.0. I am not sure what is causing the problem. It was working fine before I downloaded the program. I am not a novice; my

father taught me all about writing programs for computers and I use Excel. I have been programming and designing programs for many years. However, I only use SAS Enterprise Guide to download files. In my opinion, since SAS is so costly it is not worth getting on my website. I did. I have successfully installed EG 4.3 in a few minutes. What is the minimum hardware requirement for SAS Enterprise Guide 4.3? Will I be able to use the desktop client to download file and register the product in your website? If so, what is the minimum machine and OS? Please advise

Hi All, I downloaded SAS Enterprise Guide version 4.3 free of charge from the website.. How do I find out which package I installed so I can remove it? Thanks The program gave me an error message. It said: Warning: in macro code: character value is not valid. What does this mean? Help! You can download the program file (.exe or.zip) from the website. The program is valid as a Mac program.. can you tell me why it failed.

Another option is to use a shell script to. SAS Enterprise Guide 4.3. See the SAS website for the link to the download. So I downloaded the program, but it failed to open. Why? Is it because I downloaded it? I thought it was free. Is there a way to fix it? I downloaded the program file (.exe

or.zip) from the website. The program is valid as a Mac program.. can you tell me why it failed. Another option is to use a shell script to. SAS Enterprise Guide 4.3. See the SAS
