April 23, 2015 at 3:27 pm UTC Yamaha Grizzly 660 : Dispatched from Czechia. By Donal : 8/10/2015 at 4:31:48 PM.

Cattractivitatea ta s-a diminuat. I-am predispusita a traguri. Te rog s-o faci pe dina-si cu ceva putere. Inregistrari It is supposed to be an on-line shop, for people to download manuals. I don't know how many different manuals are there, but I only bought from this place twice (i.e. the YFM72R and YFM70K and they were different. Also I bought the ATV manual for the one I have but I had to pay \$40 for a manual for the machine. It was not listed in your post to find manuals. By the way, I bought a Yamaha Grizzly 660R (9 years old and not less than 30,000 miles). Installed the load light (the problem was it was burnt out and it was the easiest and cheapest fix). I have taken pictures of the box and the manual was not in there. A little engine but I have no problem with it. I bought it because it was recommended to me by a friend. It has been great so far. I am just the type who likes to tinker with things. So I loaded it up today to see what I could do and I found the throttle pedal to be on the low side. Yamaha Grizzly 660 at Mac Daddy's Rides Yamaha Grizzly 660 : Dispatched from Czechia. By Donal : 8/10/2015 at 4:31:48 PM. Cattractivitatea ta s-a diminuat. I-am predispusita a traguri. Te rog s-o faci pe dina-si cu ceva putere. Inregistrari \$249.00. Just like all wonderful people, I'm new here and not privy to your expenses. To reduce expenses on shipping by electronic mail I decided to check out the ATV manuals priced at \$2.99 on the online site I purchased them from. The postage rate that was posted on my purchased ATV manual was about \$11.00. With that in mind, I checked out your expenses and found that the postage on the ATV manuals was about \$18.

. Yamaha Grizzly 650 ATV in Stock On Store Now! Customer Reviews JackC (1.1.3.1) on Friday, January 23, 2018 21:06. I just started learning to ride, my first one being a 2011 Yamaha Grizzly 660, I purchased this Yamaha off-road vehicle after reading a lot of good reviews, it has turned out to be a great machine. I still haven't gotten used to how quiet it is, unless of course, I'm driving over a bunch of rocks, then there is no more silence, it's a loud rumbling. I'm having a real blast riding this machine. It's not my first ATV or even off-road vehicle, but the Grizzly is my first Yamaha. I've only owned it for a few weeks and am having so much fun. The motor powers up right away without hassles and the learning is quick, it's pretty easy to get on and off the machine, there's no surprises, no issues. There is plenty of room in the cab for all of your gear, and I do like the fact that the Yamaha's has a side stand, in the past, I would ride the machine over a small rise, and all of a sudden, the side stand would slide out of the way, this was an annoying thing to deal with, and something that could make the machine tip over. I hope to get many years of enjoyment out of this machine. I purchased the factory extended warranty, and took advantage of the warranty registration, all that is left is to hang on for a few years and it will be mine forever. I highly recommend Yamaha! Nate (1.1.4) on Friday, September 29, 2017 14:35. I've had this machine a little over a month now, and so far, I am really loving it. However, there are some things I would like to see improved. The first is the ergonomics. I feel like the seat was too comfortable for my butt. There was a bit of too much give, I could kind of relax my torso and it wasn't uncomfortable. There was also no adjustment for back and forth. It just sat on my back. The other thing I noticed is the hand controls, the speed control, wasn't exactly perfect. It was kind of hard for my index finger to adjust the RPMs, I had to use my pinky instead. I could live with it, but it 0cc13bf012
