2019. EO-24.720p.1080p.BluRay.DVDRip.XVIDÂ .Bauxitine: a novel sigma ligand which activates phospholipase C-delta-1 and induces apoptosis. The sigma receptor is a novel member of the G protein-coupled receptor superfamily. We used Bauxitine as a sigma receptor ligand and found that it bound with high affinity to a sigma receptor which was immunologically related to the sigma receptor. Bauxitine induced phospholipase C-delta-1 (PLC-delta-1) activation ( EC50: 28.7 nM) and stimulated apoptosis.Experimental study on the immunosuppressive effect of morphine in mice infected with Schistosoma mansoni. After 6 weeks of infection with Schistosoma mansoni cercariae, C57BL/6 mice were divided into 3 groups: one was left untreated, and the others were treated with morphine (5 mg/kg i.p.) 3, 6, or 9 days a week. On day 56, 5 mice from each group were sacrificed for the determination of egg output and lung egg granulomas. Serum samples were obtained on day 56 for the determination of the specific IgG anti-egg antibody. The other 5 mice of each group were sacrificed on day 70 for the determination of the total IgG and IgM serum immunoglobulins. Morphine decreased significantly the number of parasites as determined by egg output. In addition, a reduction in the number and size of granulomas was evident from the histological slides. The morphine-treated mice showed a decrease in the total IgG serum concentration. Serum specific IgG2a and IgG1 were not altered significantly after treatment with morphine. Serum IgG2b concentration was significantly decreased. Serum IgM was not altered by the treatment.Q: Shouldn't user be able to edit their answer? I've been using questions and answers in SO for years. And I've always edited my questions or answers, even when I didn't have the time, when I felt like adding something. However, I never edited answers, because all my edits were to my questions. Answers are different; they are user-generated. Yes, I can edit my own questions, but not so with answers.
