
Inazuma Eleven Pc Game English Version Free =LINK= Download Torrents

the english version of inazuma eleven is a five-game soccer management simulation set during the year of the fire festival. it features four professional teams (tokyo verdy, yokohama fc, hiroshima carp, and yokohama f marinos), and three college teams (ritsumeikan university, kokushikan university, and tokyo university). the first game in the series, inazuma eleven is notable for its high quality, large scale and high production value. the story is about the second year of the fire festival when the five japanese teams play in the fire festival cup. it also features the participation of the united states and canada. in the english version of inazuma eleven, there is a point system for clubs which was introduced in inazuma eleven 2. teams gain points by winning matches, and lose points by losing matches. the highest score is 999 points and the lowest score is -999 points. a team's point total is tallied at the end of each month, and the club with the highest score at the end of a given month is declared the champion of that month. a club can challenge other clubs to one-on-one matches for the title of the fire festival cup champion, and the winner of the title is determined by which team has the highest point total. the fire festival cup starts at the beginning of the first year of the fire festival and continues until the last match of the tournament. during the season, a club can play against another club and if the club scores more goals than the other club, it gains a point. in a match, a player can perform a special skill called a "shot" which can change the course of the game. inazuma eleven 2 is the sequel to inazuma eleven, and was released in japan on october 30, 2004. the game was released in english on november 28, 2006. it is the only entry in the inazuma eleven series that does not contain a japanese voice track.
