"freedb easy navigator is a software that gives you the right information to search your databases. This program lets you get the files in the correct format for the use that you intend. Your results will have all the information that you need, you can sort it by your own way, search by the album, the title, the file name or the artist." Here is how to search the freedb db: -After connecting to the freedb server with Easy Navigator, select a search keyword: a)click on the "Album" button. You will be asked to enter a search keyword, type it here and click on Search. b)click on the "Disc" button. You will be asked to enter a search keyword, type it here and click on Search. -You will see all the results. -Each result can be expanded and then be saved to be exported in some of the following formats: CUE, TXT, XMCD, MCD, or from an external text file. -Clicking on the disc ID will load the file from that disc, which means that you can download any file that has the same disc ID. -You can even sort the search results by Disc length, Disc Id, File Name, Title, Album, or Artist. -If you are exporting the results to an external text file, you can even add some of your personal notes. Supported platforms: -Win 95/98/Me/NT4/2000/XP -FreeDB supports all the following language formats: -English: : UK/USA/Aus -German: FR/DE -Spanish: ES -Greek: GR -Japanese: JA -Chinese: CN -Korean: KO -Czech: CS -Italian: IT -Polish: PL -Portuguese: PT -French: FR -Romanian: RO -Russian: RU -Hungarian: HU -Slovenian: SV -Estonian: EE -Turkish: TR -Macedonian: KM -Serbian: SR -Serbian: SR -Cyrillic: RU -Finnish: FI -Upper-camel: CS -Lower-camel: ES -Hungarian: HU -Romanian: RO -Romanian: RO -
